

LONGEYE PRIVACY NOTICE

Last Updated: March 23, 2026

This Privacy Notice explains how Longeye, Inc. and its affiliates (collectively referred to as “**Longeye**”) collect, use, disclose, and otherwise process personal data in connection with your use of Longeye’s websites, platforms, and services. We may also choose or be required by law to provide different or additional disclosures relating to the processing of personal data about residents of certain countries, regions, or states. Please refer to the [Region-Specific Disclosures](#) section below for additional disclosures that may be applicable to you.

This Privacy Notice does not address our privacy practices relating to Longeye job applicants, employees and other employment-related individuals, nor data that is not subject to applicable data protection laws (such as deidentified or publicly available information). This Privacy Notice is also not a contract and does not create any legal rights or obligations not otherwise provided by law.

Our Role in Processing Personal Data

Data protection laws sometimes differentiate between “controllers” and “processors” of personal data. A “controller” determines the purposes and means (the why and how) of processing personal data. A “processor,” which is sometimes referred to as a “service provider,” processes personal data on behalf of a controller subject to the controller’s instructions.

This Privacy Notice describes our privacy practices where we are acting as the controller of personal data. However, this Privacy Notice does not cover or address how our customers may process personal data when they use our services, or how we may process personal data on their behalf in accordance with their instructions where we are acting as their processor, such as when we act as a processor of Criminal Justice Information provided by our government customers. As a result, we recommend referring to the privacy notice of the customer how they engage processors, like us, to process personal data on their behalf or, in the case of Criminal Justice Information, the applicable laws, rules, and guidelines that govern the disclosure and processing of Criminal Justice Information. In addition, we are generally not permitted to respond to individual requests relating to personal data we process on behalf of our customers, including government agencies, so we recommend directing any requests to the relevant customer or government agency.

Our Collection and Use of Personal Data

The categories of personal data we collect depend on how you interact with us and our services. For example, you may provide us your personal data directly when you open an account, contact us, or use our services, including our audio and video processing services, or our platform (collectively, our “Services”).

We also collect personal data automatically when you interact with our websites and other services and may also collect personal data from other sources and third parties.

Personal Data Provided by Individuals

We collect the following categories of personal data individuals provide us:

- **Contact Information**, including first and last name, phone number, email address, mailing address, and communication preferences. We use this information primarily to fulfill your request or transaction, to communicate with you directly, and to send you marketing communications in accordance with your preferences.
- **Professional Information**, including job title, employer, information about your role, and the nature of your relationship with us. We use this information primarily to fulfill your request or transaction, to determine how we communicate with you, to administer your account, to provide you with our services, and for customer support purposes.

- **Account Information**, including first and last name, email address, account credentials or one-time passcodes, and the products or services you are interested in, purchased, or have otherwise used, as well as transaction information (such as records of payment). We use this information primarily to administer your account, provide you with our products and services, communicate with you regarding your account and your use of our products and services, and for customer support purposes.
- **Customer Content**, including any files, documents (such as case names, case information, and case reports), audio, videos, images, data, or communications you choose to input, upload, or transmit to our products and services. We use this content primarily to provide you with our products and services, to facilitate your requests, and to improve our products and services.
- **Security-Related Information**, including name and contact information of visitors to our premises, video recordings of videos on our premises, and electronic login records and access details when a visitor utilizes company technology on our premises. We use this information primarily to protect the security of our premises, employees, and our company.
- **Feedback and Support Information**, including the contents of custom messages sent through the forms, chat platforms, including our online live chat or automated chat functions, email addresses, or other contact information we make available to customers, as well as recordings of calls with us, where permitted by law (including through the use of automated tools provided by us or our third-party providers). We use this information primarily to investigate and respond to your inquiries, to communicate with you via online chat, email, phone, text message or social media, and to improve our products and services.

If you choose to contact us, we may need additional information to fulfill the request or respond to your inquiry. We may provide additional privacy disclosures where the scope of the request we receive or personal data we require fall outside the scope of this Privacy Notice. In that case, the additional privacy disclosures will govern how we may process the information you provide at that time.

Personal Data Automatically Collected

We, and our third-party partners, automatically collect information you provide to us and information about how you access and use our products and services when you engage with us. We typically collect this information through the use of a variety of our own and our third-party partners' automatic data collection technologies, including (i) cookies or small data files that are stored on an individual's computer and (ii) other, related technologies, such as web beacons, pixels, embedded scripts, mobile SDKs, location-identifying technologies and logging technologies. Information we collect automatically about you may be combined with other personal information we collect directly from you or receive from other sources.

We, and our third-party partners, use automatic data collection technologies to automatically collect the following data when you use our services or otherwise engage with us:

- **Information About Your Device and Network**, including the device type, manufacturer, and model, operating system, IP address, browser type, Internet service provider, and unique identifiers associated with you, your device, or your network (including, for example, a persistent device identifier or advertising ID). We employ third-party technologies designed to allow us to recognize when two or more devices are likely being used by the same individual and may leverage these technologies (where permitted) to link information collected from different devices.
- **Information About the Way Individuals Use Our Services and Interact With Us**, including the site from which you came, the site to which you are going when you leave our services, how frequently you access our services, whether you open emails or click the links contained in emails, whether you access our services from multiple devices, and other browsing behavior and actions you take on our services (such as the pages you visit, the content you view, videos you watch, the communications you have through our services, and the content, links and ads you interact with). We employ third-party technologies designed to allow us to collect detailed information about browsing behavior and actions that you take on our services, which may record your mouse movements, scrolling, clicks, and keystroke activity on our services and other browsing, search or purchasing behavior. These third-party technologies may also record information you enter when you interact with our products or services, or engage in chat features or other communication platforms we provide.

All of the information collected automatically through these tools allows us to improve your customer experience. For example, we may use this information to enhance and personalize your user experience, to monitor and improve our

products and services, to offer communications features such as live and automated chat, and to improve the effectiveness of our products, services, offers, advertising, communications and customer service. We may also use this information to: (a) remember information so that you will not have to re-enter it during your visit or the next time you visit the site; (b) provide custom, personalized content and information, including targeted content and advertising; (c) identify you across multiple devices; (d) provide and monitor the effectiveness of our services; (e) monitor aggregate metrics such as total number of visitors, traffic, usage, and demographic patterns on our website; (f) diagnose or fix technology problems; and (g) otherwise to plan for and enhance our products and services.

For information about the choices you may have in relation to our use of automatic data collection technologies, please refer to the [Your Privacy Choices](#) section below. For additional details about the cookies we use on our websites and to adjust your preferences with regard to those cookies, please visit our “Cookie Preferences” manager linked in the footer of our websites.

You should always review and, if necessary, adjust your privacy settings on third-party websites and social media networks and services before sharing information and/or linking or connecting them to other services. Automatic Data Collection Preferences

Certain of our services may provide you the ability to adjust your preferences regarding our use of automatic data collection technologies. For example, there is a "Cookie Preferences" manager linked in the footer of our websites that allows you to adjust your preferences regarding certain automatic data collection technologies on the specific website you are visiting for the specific device and browser you are using at that time (which means you will need to change your preferences on each device and browser you use to interact with the specific website you are visiting).

Where a Longeye-specific preference manager or privacy setting is not available, you may be able to utilize third-party tools and features to further restrict our use of automatic data collection technologies. For example, (i) most browsers allow you to change browser settings to limit automatic data collection technologies on websites, (ii) most email providers allow you to prevent the automatic downloading of images in emails that may contain automatic data collection technologies, and (iii) many devices allow you to change your device settings to limit automatic data collection technologies for device applications. Please note that blocking automatic data collection technologies through third-party tools and features may negatively impact your experience using our services, as some features and offerings may not work properly or at all. Depending on the third-party tool or feature you use, you may not be able to block all automatic data collection technologies or you may need to update your preferences on multiple devices or browsers. We do not have any control over these third-party tools and features and are not responsible if they do not function as intended.

Modifying or Deleting Your Personal Data

If you have any questions about reviewing, modifying, or deleting your personal data, you can contact us directly at privacy@longeye.com. We may not be able to modify or delete your personal data in all circumstances.

Partner-Specific Preferences

Certain of our third-party providers and partners offer additional ways that you may exercise control over your personal data, or automatically impose limitations on the way we can use personal data in connection with the services they provide:

- **Device-Specific / Platform-Specific Preferences:** The device and/or platform you use to interact with us (such as your mobile device or social media provider), may provide you additional choices with regard to the data you choose to share with us. For example, many mobile devices allow you to change your device permissions to prevent our products and services from accessing certain types of information from your device (such as your contact lists or precise geolocation data), and many social media platforms allow you to change your platform permissions to prevent integrated products and services from accessing certain types of information connected with your profile. Please refer to your device or platform provider's user guides for additional information about implementing any available platform-specific targeted advertising opt-outs.

Children's Personal Data

Our services are not directed to, and we do not intend to, or knowingly, collect or solicit personal data from children under the age of 18. If an individual is under the age of 18, they should not use our services or otherwise provide us with any personal data either directly or by other means. If a child under the age of 18 has provided personal data to us, we encourage the child's parent or guardian to contact us to request that we remove the personal data from our systems. If

we learn that any personal data we collect has been provided by a child under the age of 18, we will promptly delete that personal data.

Security of Personal Data

We have implemented reasonable physical, technical, and organizational safeguards that are designed to protect your personal data. However, despite these controls, we cannot completely ensure or warrant the security of your personal data.

Retention of Personal Data

We will usually retain the personal data we collect about you for no longer than reasonably necessary to fulfil the purposes for which it was collected, and in accordance with our legitimate business interests and applicable law. However, if necessary, we may retain personal data for longer periods of time as required under applicable law or as needed to resolve disputes or protect our legal rights.

To determine the appropriate duration of the retention of personal data, we consider the amount, nature, and sensitivity of the personal data, the potential risk of harm from unauthorized use or disclosure of personal data and if we can attain our objectives by other means, as well as our legal, regulatory, tax, accounting, and other applicable obligations.

Once retention of the personal data is no longer reasonably necessary for the purposes outlined above, we will either delete or deidentify the personal data or, if that is not possible (for example, because personal data has been stored in backup archives), we will securely store the personal data and isolate it from further active processing until deletion or deidentification is possible.

Third-Party Websites and Services

Our services may include links to third-party websites, plug-ins, applications and other services. Except where we post, link to or expressly adopt or refer to this Privacy Notice, this Privacy Notice does not apply to any personal data practices of third parties. To learn about the personal data practices of third parties, please visit their respective privacy notices.

Privacy Program Structure and Role Coordination

Longeye maintains a dedicated privacy program staffed by designated privacy resources responsible for overseeing the organization's privacy practices. The Privacy Officer serves as the primary point of accountability for privacy compliance and is supported by role-specific privacy responsibilities distributed across Engineering, Security, Legal, and Customer Success teams. Engineering owns technical privacy controls such as data minimization, encryption, and access restrictions. Security is responsible for monitoring, incident detection, and breach response coordination. Legal provides regulatory guidance and manages data processing agreements with third parties. Customer Success handles privacy-related inquiries from customers and facilitates data subject access requests. These roles coordinate through regular cross-functional privacy reviews, a shared privacy risk register, and an escalation process that routes privacy concerns to the Privacy Officer for resolution. This structure ensures that privacy obligations are addressed at every level of the organization and that no single team operates without oversight or accountability.

Region-Specific Disclosures

We may choose or be required by law to provide different or additional disclosures relating to the processing of personal data about residents of certain countries, regions or states. Please refer below for disclosures that may be applicable to you:

- **United States:** If you are a resident of the United States, please click [here](#) for additional U.S.-specific privacy disclosures, including a description of the personal data rights made available to residents of certain states under applicable law.

If we make material changes to this Privacy Notice, we will notify individuals by email to their registered email address, by prominent posting on this website or our other platforms, or through other appropriate communication channels. All changes shall be effective from the date of publication unless otherwise provided.
